29 April 1959

MEMORANDUM FOR : TALENT ^{Security} Control Officer, DPD - [REDACTED]

SUBJECT : Request for "T" Clearances in FE Division in Connection
with Operation [REDACTED] 25X1A

1. Mr. Desmond Fitzgerald, Chief of FE Division, called this morning to ask if I would arrange for some additional clearances for the following people who will be concerned with exploitation of the take from Operation [REDACTED]

[REDACTED] Case Officer, [REDACTED]
[REDACTED] FE Division
[REDACTED] Executive Officer, FE Division

25X1A

2. Mr. Fitzgerald said this is the minimum group in addition to those now possessing "T" clearance required to have access to the take once it is placed at the disposition of FE Division for exploitation. 25X1A

3. You may wish to discuss in a preliminary way with [REDACTED] of PIC the possibility that, as a result [REDACTED] a requirement may exist for the production of sanitized prints [REDACTED] which presumably would carry some form of gelatine overlay that would make them useful for briefing purposes in the field. I told Mr. Fitzgerald that any use of the actual photography in this manner would raise a whole spectrum of problems regarding its handling and protection in the field. [REDACTED] may wish to think about these problems and I suggest that you ask him to let you know exactly how horrifying a problem this will be. 25X1A

4. Please advise me when [REDACTED] has effected the requested clearances and when he has answered your question as to the handling of the take in the field. I am assuming that [REDACTED] will contact Mr. Fitzgerald directly when the requested clearances are approved.
